

All our references, and there are quite a few, were executed in close collaboration with planners and investors, offering the best technical solutions, as a base of the good construction's performance.

With superior technological power, various CAD / CAM softwares, technical engineering preparation and professional installment, we are ready for the most demanding projects, in both EU & Germany.

S.B.S. with the long lasting experience and references, has so far, proven it's success all over Croatian territory. Further along this road, we would like to prove the same quality on both German & EU market, leaving behind us modern and unique facilities.

If you might have an interest and a need of our services, please contact us at the below address, providing an opportunity for mutually satisfactory cooperation.

Would You like to be our partner
